NEW MEMBER CHECK-IN

Every church needs a plan and process for welcoming people, otherwise visitors fall through the cracks and opportunities for personal ministry are lost.

Getting people connected, and helping them stay that way, is one of the most challenging aspects of ministry. That's why you need a plan. It is more important to correctly make disciples versus growing your congregation quickly.

A quick, secure check-in method is essential to show visitors and members that your church is efficient, organized, and prepared to handle their visit as seamlessly as possible. In addition, it's imperative, through your check-in service, to demonstrate you have a safe, secure environment for children.
